'Guarded optimism' in acid rain report to council

Dr. Tom Brydges offered guarded optimism when he spoke to the members of Haliburton County Council concerning the problem of acid rain in the province. Dr. Brydges, a spokesman with the Ministry of Environment, has been at the forefront of acid rain investigation and study for the past number of years. He appeared before the council October 21 to bring them up to date on developments concerning the problem.

His optimism is based in part on the changing attitudes which he has witnessed on the part of residents and legislators in the United States. "One of the most successful ideas to date, in getting our concerns across to the Americans, was the tours we held to Sudbury and the Bracebridge area," Brydges commented. A number of the county politicians attended those meetings.

According to Brydges, the tours gave the provincial experts an opportunity to explain the damage caused by acid rain. He pointed out that a recent tour of press representatives from the U.S. meant the Ontario side of the story was told to 20 million readers.

"We're being heard in the

United States," Brydges stated, "we are getting a sympathetic hearing from many quarters." He said there are many people in the U.S. who are unaware of the problem or who claim the problem does not exist. "I was recently speaking to a group of coal producers in Ohio. They are showing more concern rather than continuing to deny the problem exists. They are interested in knowing how to solve the problem," Brydges commented.

The M.O.E. spokesman stated that a solution is still some way off but that progress is being made to convince the Americans of the seriousness of the situation.

Brydges noted that the province intervened directly recently to present its case. "We have made formal presentations at six hearings in the United States," Brydges told the council. One involved a proposal to reduce the emissions from coal fired electrical power plants. "The Environmental Protection Agency has yet to rule on that case but they are aware of our concerns," the spokesman commented.

(more on page 2)

The field was a little slushy Friday as HHSS player Scott Mitchell discovered when his helmet met the ground during a tackle. The result was a face mask full of snow and some curious looks from fellow team-mates. The Redmen went on to defeat the visitors, I.E. Weldon, by a 19-10 margin. A complete report on the game and more photographs can be found on page 17.

Change in zoning, hazard land, density concerns expressed

The zoning of lakefront property, the density of development on area lakes and the designation of hazard land in the Minden Village Area were three of the main concerns expressed by ratepayers at a meeting Saturday at the Anson, Hindon and Minden Township offices. 50 people were on hand to discuss the implications of the revised municipal zoning by-law currently under consideration by the township council.

A large contingent of lakefront property owners were on hand to scrutinize the document and add their comments. Lew McCarriston of the Soyers Lake Property Owners' Association questioned the township planner on the change of zoning from "Residential" to "Recreational Residential" (RR).

He said the change was an extremely important one which could have far-reaching implications for lakeshore property owners. He said the change fails to recognize the rights which the landowners now have under the existing by-law. Specifically, he was concerned that individuals who had bought or built a cottage with the intent of using it as a retirement home, may find their right to live in the home on a permanent basis restricted by the new designation.

"There is only one use permitted in the RR zoning," McCarriston told the meeting, "that is a recreational dwelling." He said he recognized that there were problems in attempting to convert some of the existing cottages into permanent homes, but he also noted that many of the cottages have been built to a standard which exceeds the

municipal standards.

"What we have in the existing by-law is a 'right'," McCarriston stated, "we're not going to give up that right, at least not easily." The comment was greeted with applause by others in the audience.

Tony Holmes, consultant for the municipality in the by-law revision, said the change in designation had been made because of a trend in the province to denote such property for seasonal use. "Such a term implies seasonality, and we suggested that it should be avoided," he said that provincial authorities might question the "residential" only zone for lakefront property and so the consultants have suggested the "recreational residential" provisions.

The consultant said there was no intention on the part of the by-law to interfere with the residency arrangements of the property in question.

He also stated that the RR zoning differentiated between the rural and village residential areas.

His explanations did not appear to persuade the lakefront property owners that the new designation would mean a loss of the right to use their cottage as a permanent dwelling.

Density

McCarriston also pressed the council on lakefront density. The existing by-law requires a minimum lakefront frontage of 100 feet. The revised by-law suggests 120 feet. McCarriston suggested the limit should be set at 150 feet with one half acre lots the smallest for lakeshore property.

He suggested that if the council was unwilling to accept that suggestion, the by-

law be left until a provincial study on the carrying capacity of lakes is completed. McCarriston said the study should be available by next spring.

The spokesman for the Soyers Lake Property Owner also asked that the by-law not be enacted until vacation property owners have had an opportunity to consider its implications. He said passage should be deferred until the busy summer season has passed and the seasonal residents have had an opportunity to study the matter.

Reeve Lloyd Walker described the comments of McCarriston as "good common sense. We'll certainly look into it," he stated.

Councillor Ed Pergolas said he wanted to consider the comments of the cottage owners before making a decision. "This is not a matter for a snap judgement," he commented. "I want to study the implications of what you are proposing before offering

my comments."

The only other elected member in attendance, Councillor Lyle McKnight, expressed basically the same sentiments.

Hazard land

Quizzed on the designation of hazard land through the village of Minden, consultant Tony Holmes said he would not be able to defend the designation on the maps supplied by his firm. He said delineating hazard land in the village, which follows the banks of the Gull River very closely, was taken from the Haliburton County Development Strategy and that those maps did not offer a large enough scale to properly mark the areas.

The consultant admitted that a study would be needed by engineers to determine the full extent of flooding which might occur if the river spilled over its banks.

One other comment, expressed in the McCarriston presentation by another

(more on page 2)

Minden hosts Hallowe'en party

This Saturday is Hallowe'en and, in addition to the traditional trick or treat activities, a special community wide shopping party has been planned in Minden.

Nineteen merchants in Minden have joined this special one day promotion. All day Saturday they will be offering treats for children in costume, accompanied by an adult, and special Hallowe'en bargains on a number of items in each store. The merchants have extended a welcome to residents of surrounding communities to join in the fun and visit Minden during the day to take advantage of these bargains and be part of the fun.

While the treats will be available for the children, the adults are encouraged as well to get into the spirit of the day, don a costume, and join the fun.

All the details of this special Hallowe'en promotion can be found in the middle eight pages of today's newspaper.

Work parties have been putting the finishing touches on the interior of the new curling rink. The facility opens Monday when regular league curling starts. Ron Reid and Penny Obee are caught with brush and roller in hand as they apply another coat to the clubroom walls.

A rather reluctant groom is brought to the altar by a very persuasive father during a mock wedding ceremony staged recently at Hyland Crest. The ceremony was part of the celebrations marking the sixty-second wedding anniversary of Mr. & Mrs. Herbert Shorter, seen at the right, cutting the cake. Taking part in the mock wedding ceremony were Wayne Cox, the insistent father, Jeanne Sears the reluctant groom, Janet Baker the blushing bride and Irene Moore as the preacher.

Joint committee backs appeal against CTC railway decision

The joint Victoria-Haliburton Railway Retention Committee plans to lodge a formal appeal against the findings of the Canadian

Transport Commission (CTC) on the future of the CNR line between Haliburton and Lindsay. The CTC issued its report, which favoured the

CNR request to abandon the line, in late September. The recommendations of the commission gave the railway 35 days before it can start to divest itself of the line.

The decision by the joint committee was taken at a meeting October 22 in Lindsay. The committee said it would encourage the provincial government to launch an appeal and, in the absence of action by the Ontario authorities, the committee was prepared to act to halt the abandonment.

Haliburton Warden Murray Fearrey said the 35 day limit gave those interested in seeing the line retained by CNR, until November 4 to act. "If no appeal is registered by then, the CNR can start ripping up the tracks. Once the rails are gone, they're gone forever," the Warden commented.

He said the basis of the

Zoning meeting

(from page 1)

member of the audience, was that the zoning by-law was a control which ratepayers exercised over development in their own community. It was pointed out that it was a law which should reflect the needs and wishes of the property owners and not the ideas of planners or civil servants who do not have to live with the results.

Allin Cooper commented, "it is everyone's responsibility to tell the councillors what they want in the by-law. It will be no one's fault but our own if the by-law is wrong."

Reeve Lloyd Walker said another public meeting would be held before the by-law was passed.

committee's appeal would be that various studies have not been completed and therefore all the facts were not available to the CTC when it made its decision. Among those studies, according to Fearrey, is one assessing the mineral potential of a zinc deposit in northern Victoria County and an investigation into the potential of tourist appeal of the line if a steam train were operated on the tracks. The Warden also pointed out that the question of moving transformers to the Minden

Hydro station was not resolved in the CTC decision.

The Hydro officials had argued in favour of retaining the line as it offered the utility the only method of moving in a large transformer to the Allsaw Flats station if one of the two in operation should need replacing.

"It shouldn't cost CNR to leave the rails in place while these matters are cleared up," Fearrey commented. He said that if the studies revealed the line held no value, the committee would have to admit defeat and allow the decision to stand. However, he indicated the

group was willing to "fight to the last round" to save the rail line.

Fearrey said there was no indication from the province whether they would be appealing the decision. He said they are still considering the possibility.

At the October 21 meeting of Haliburton County Council, the Warden had said that the appeal would be difficult to formulate since the group had no new evidence to present. At that time he noted that the recently released tourism development strategy

(more on page 3)

Acid rain

(from page 1)

Neutralization

The doctor told the meeting that the ministry has selected a number of lakes in the province to test a neutralization or liming project. He said a joint MOE-MNR study group has been established to oversee the program. He said the scientists have been gathering information on the test lakes all summer to obtain a profile of the water bodies prior to the addition of the lime.

He said the Swedish scientists, who have used liming extensively, have just endorsed a massive program to lime the lakes in that country to protect them from acid rain. He said the Swedes have also stepped up their efforts to convince neighbouring countries to reduce their acid emissions.

Brydges said that while liming provides protection for the lakes, it only offers a temporary solution to the problem and that the only answer lies in abatement at the source. He also noted that undertaking a commitment to large-scale liming undermines efforts to convince the polluters of the need to reduce emissions. He also pointed out that the province has many more lakes than it could possibly protect with neutralization.

"The only organization capable of liming all the lakes in eastern Canada," Brydges commented, "is another glacier, and I don't think we're

quite ready for that."

Asked by Stanhope Reeve Jim Harrison about the state of county lakes, Brydges said they seem to be "holding their own". He said the long term damage caused to the lake ecology might not be evident immediately and the full impact may take years to emerge. He said the increased growth of algae in a number of Haliburton lakes might be attributable to the increased acidity. "Some species of algae grow in response to the acid stress," he commented.

The spokesman said that acid rain impact on forestry is still a "hotly debated subject". He said investigation has shown that the acid rain dissolves aluminum in the soil which is absorbed through the tree roots. While this has no immediate impact, it can leave the tree vulnerable to drought.

He said scientists have noted a die-back in foliage on trees in the Adirondack regions of New York State. He said this has not been tied to acid rain, but scientists are examining the situation.

Brydges noted that increased interest is being shown on the impact acidified precipitation is having on buildings and other structures.

The spokesman asked the council to consider the role it would like to play in any continuing liming program. "We have received support from numerous groups and we may just take advantage of the offers."

Source of funding a concern for HCSA

The source of the funding to maintain snowmobile trails in the province, and specifically in the county, was the main concern at the annual meeting of the Haliburton County Snowmobile Association. The organization gathered Saturday evening at the firehall in Minden to hear options on this problem, discuss other aspects of this winter's program and elect a new executive.

The president, Tom Prentice, reported to the group that the provincial assistance which had been withdrawn last month has now been re-instated, but at a reduced level. He told the meeting that the provincial government would make \$200,000 available to snowmobile and cross-country ski clubs this season for trail work. This compares with \$400,000 last year. "Our club received \$12,000 last year, so, since they cut the entire budget in half, we could expect to receive \$6,000 or less," the president commented. Prentice said that he had not received definite word on whether the club would be in line for funding.

Prentice said the organization would have to find other sources of funding for this year. He said the association would be increasing its efforts to sell memberships and would be introducing "temporary memberships" for people visiting the area. These would sell for \$5 for a week. As well, the association is requesting that lodges which rent snowmobiles pay a \$25 per machine fee.

The president admitted there was no way the club could enforce the membership requirements. "We are counting on the goodwill of the trail users," Prentice commented. "If we don't get the money, we can't keep the trails open and groomed."

He said the executive had considered turning the trail system into a private network, which would limit access to members only. He said that opinion was rejected for this year because it required a great deal of paperwork to obtain new landowner permissions. While the club has permission to cross private land now, new forms would have to be signed by the landowners if the association wanted to enforce the "members only" policy.

Prentice stated the executive would have to take a close look at the implications of making the HCSA trails private. He told the meeting that in addition to the new property permissions which must be sought, the club would have to change its insurance coverage and would have to determine the status of the trails which currently cross Crown land.

Speaker

The guest speaker for the meeting was Carl Cowden, customer relations representative for Bombardier. He said that one reason the province willingly dropped trail funding this year (although it was later extended for one more season) was that the sport was "not being heard by the politicians". He said that bickering between the two provincial snowmobiling organizations, the Ontario Trail Alliance and the Ontario Federation of Snowmobile Clubs, has created a situation where the government feels no one organization can speak for snowmobilers in the province.

"There is no over-all plan for snowmobiling in Ontario," Cowden told the meeting. "Unless the two groups can resolve their differences snowmobiling will not have a solid voice at Queen's Park."

The speaker stated that a proposed Ontario Snowmobile Council (OSC) would present a united front for snowmobilers. The council would combine the two existing organizations with representatives from the manufacturers and other bodies.

"Snowmobiling in Ontario,

if it is to have its point of view heard in government circles, needs to speak with one voice," Cowden said. "It will need continuity in funding, whether that is by government grants, special levy with licence fees or by going private, and the sport is going

grooming Bombi from The Brown Owl Restaurant owner Leroy Lichty. The members were told that Minden Texaco has donated \$200 worth of gasoline for another Bombi and the labour to carry out minor repairs on the equipment owned by the HCSA.

The president also acknowledged the contribution of the Minden Shell Service Station and Lewis Stevens for storing the association's grooming equipment during the off-season.

Four new directors were added to the association's

executive with all of last year's officers retaining their posts for the next season. The 1981-82 HCSA executive will include: president Tom Prentice, vice president Steve Berry, treasurer Doug Tedford, secretary Jan Tedford, membership Norm Gemmell, and directors Barry Stewart, Jack Snell, Dale MacDonald, Guard Campbell, Larry McKnight, Brian Hunter, Tom Moffat, Paul Sampson, Bob Valentine and directors-at-large Mark Lester and Leroy Lichty.

HCSA president Tom Prentice, right, chats with guest speaker, Carl Cowden.

to need regulations to cover trail use."

The speaker said the OSC should be in place by the end of the year if it was to become an effective body. "Winter is one of this province's greatest renewable resources," Cowden stated. "There are over 750,000 participants in the sport and that figure is growing," he stated.

Before the meeting closed, the membership gave the executive permission to decide which provincial organization the HCSA would support, if any. As well the members discussed volunteer help with grooming and trail maintenance, opening the trails earlier in the season so they would be available for the Christmas holidays, and a variety of social events for the coming season.

The association accepted the donation of a season's supply of gasoline for the trail

Editorial

An important right

Lakefront property owners in Anson Hindon and Minden made a number of valid points in their presentation Saturday concerning the new zoning by-law. The property owners were suggesting that the change in zoning from residential to recreational residential for all lakefront property in the municipality threatened their rights. Specifically, they were concerned that the new designation would limit their ability to use the cottage as a retirement home.

This is a right which they now say they have, one that existed when they purchased their property. The revised zoning by-law would remove that right, they claim.

The lakefront property owners are correct to be attempting to protect their option. They should not be left standing alone in their effort either. Other residents and the members of council in particular should recognize their claim as legitimate.

Many of these people have purchased property here with retirement as the ultimate goal. They couldn't have chosen a more congenial spot in the province to do so. We should welcome the contribution such a boost in the permanent population can make to the area. Rather than place what could be roadblocks in their desire to take up residence here, the council should be making every effort to smooth the transition.

Of course, all parties should recognize the delicate nature of the lake ecosystems and ensure the permanent shoreline development does not impair lake quality. Most lakefront property owners have demonstrated a responsible attitude toward stewardship of our natural resources. Provisions for allowing what are cottages to become permanent residences should recognize these important factors.

Prudent haste

A request by lakefront property owners that the revised zoning by-law should be put "on hold" until next summer to allow all cottagers to have a say in its contents should be ignored by the council. Not as a discourtesy to the summer, residents, but as a recognition that the operation of the municipality of Anson, Hindon and Minden is a twelve month a year operation.

Cottagers were well represented Saturday, an indication we feel that others, if they were interested in the by-law provisions, could have attended as well. The municipal council is elected to transact township business and make decisions. While an important piece of legislation, such as the zoning by-law, does deserve public scrutiny, it should not be delayed what could be seven or more months simply to hear the thoughts of non-resident ratepayers who couldn't be bothered to make the trip to Minden last Saturday. If they didn't show up last weekend, we question whether they would indeed attend such a meeting in mid-summer.

The council should proceed with prudent haste.

Coming up

Saturday, October 31: Minden Minor Hockey Halloween Dance at the arena.

Tuesday, November 3: Horticultural Society meeting, 7:30 p.m. in the Common Room at the Library/Cultural Centre.

Tuesday, November 3: 7:30 p.m. First meeting of Archie Stouffer Home and School Association. Come and meet the Principal and teachers. At ASES gym.

Wednesday, November 4: U.C.W. meeting in United Church Hall, 7:30 p.m.

First snowfall

The debate continues

- by John Eakins, M.P.P. -

As expected, debate on the Suncor deal continues. I will have more to say on this later.

Angry Opposition members have demanded that the Speaker enforce the rules of the Legislature requiring that the Premier table the compendium of information which he used when deciding to buy Suncor stock. He was asked for such a compendium when he announced the purchase, about which only four Ministers knew ahead of time, and which was strongly opposed by the Treasurer.

Liberals have expressed strong opposition to the transaction, and have complained that the \$650 million could have been better spent to support the province's industries.

Insurance
The Minister of Consumer

and Commercial Relations has stated that automobile insurance companies won't be allowed to charge elderly drivers higher premiums solely because of their age.

More than 250,000 of Ontario's five million licenced drivers are over 65, and the Minister has said that it is "unfair and arbitrary" for some firms to charge more and to request medical certificates from elderly drivers in good health. Effective immediately, no insurance firm can refuse to renew a policy or to sell a new one solely on the basis of the driver's age.

Rent review

The Commercial Relations Minister has also stated that the government is not planning to abolish rent review "now, next year or in the immediate future ... Some

form of rent review will remain ... until there is a substantial increase in available apartment units in those communities which are experiencing critical shortages."

He expressed the view that a premature end to Ontario's rent review program could precipitate sharp and sudden rent increases, causing severe financial difficulties for many tenants.

Human rights

According to the Minister of Labour, the Conservatives have reached a consensus over

(more on page 7)

Acid rain, the scourge of the eighties, continues to make headlines. Parliamentary committees recommend cutting Canadian emissions by two-thirds. American politicians and media visit Ontario to view the problem first-hand. Canadian scientists testify before a hostile hearing in Washington. Ministers talk about "acts of hostility" and cry out for action.

Meanwhile, as the rain continues, the toll of dead lakes mounts. This summer, I canoed through a string of dead lakes in the Temagami area for the first time. So now, if a doubtful American asks me how we are defining our "dead" lakes, I tell him about my friend Florence.

Florence Lake lies deep and cold, near the head of the Lady Evelyn River. It's a three day paddle to Florence, no roads or factories penetrate its shores. Its waters sparkle in the sun; its rocky bottom is visible to depths of 10 feet or more. Our campsite is perched on an impressive outcrop of granite sloping down to the water; similar areas of bare rock are scattered around the lake.

We knew beforehand that Florence Lake was acidified, that the lake trout my partner had caught there 40 years ago were no more. But the impact didn't really sink home until the next morning. Like most canoeists, we had cleaned our pots the night before right in the lake. Normally by dawn the scraps of food would be long gone, eaten by the assortment of fishes, crayfish, leeches, and insects that inhabit healthy lakes. But in Florence, the scraps of food remained untouched, a testament to the sterility of an acid lake.

Florence is not yet completely dead. The loons still visit in search of the few hardy fish which must remain. A moose still splashes in the shallows for his evening meal of submerged weeds. But for how long can it hang on to perhaps the last 5% of its life? How many more of our lakes must become 95% dead before we gain the political will to curtail the causes of acid rain?

SECOND CLASS MAIL REGISTRATION NO. 0936

Outstanding HHSS students honoured in ceremony

The HHSS auditorium was filled to near capacity Saturday evening as students, parents and teachers gathered to honour the outstanding students of the 1980-81 academic year. The event was the annual high school awards night.

Many of the awards were presented to graduate students who returned from colleges and universities to accept their scholarships, awards and bursaries. In addition, students in grades 9 through 12 received proficiency awards, honour plaques and bars and awards for perfect attendance. Also honoured were members of the honours society and students receiving the school letters.

The following awards were presented during the evening:

Year one honour students

Carol Anderson; David Barry; Tara Davies; Lori Dunham; Dawn Elliott; Angela Googh; Lisa Jones; Robert MacLeod; Mary Ann Madill; Lisa Malott; Karen Medcalf; Colin Newell; Michael Parish; Paul Penick; Dale Ripley; Shona Ross; Kathleen Shipley; Bernard Upton; Kathleen Walsh; Timothy Wessell; Tracey Wilson; Catherine Woods; and Karen Wright.

Year two honour students

2 Year Honours: Dana Collier; Brian Donaher; Karen Gillespie; Christine Hartin; Catherine Howe; Michele Levesque; Susan Milne; Victor Mitchell; Laura Pickett; Fredrick Roberts; Lynne Stamp; Karen Stewart and Kristine Storey.

1 Year Honours: Mark Blackburn; Tracey Henderson; Deborah Ingram; Jessica Powell; Jennifer Stitt and Signe Tashlin.

Year three honour students

3 Year Honours: Craig Bugden; Terry Crowe; Ann Everall; Gregg Feltham; Julie Heayn; Christopher Lodenquai; Katherine Mosgrove; Michael Pearsell; Michael Pearson; Nancy Shipley; Bruce White; James Wooden; and Dawn Wright.

2 Year Honours: Terry Allore; Gregory Brown; Shelly Bull; Lyle Donaldson; Phillip Handy; Jacqueline Miller; William Mulholland; Stephen Symonds and Anthony VanLieshout.

1 Year Honours: Suzanne Carrell; Peter Connelly; Jeffrey Foran; Sheila Harrison; Eileen Henderson; Jane Hicks; Stephen Hogg; Stephen MacNaull; Gregory McKay; Craig Saunders; Peter Schepers and Wendy Sicard.

Year four honour students

4 Year Honours: Michael Anderson; Bret Austin; Douglas Cross; Andrew Feltham; Karen Hughey; Stephanie Kuno; Ernest Mosgrove; Laurie Sawyer; Jane Taylor; Randy Vanderstarren and Sharon Williams.

3 Year Honours: Catherine Darby and Ronald Yake.

2 Year Honours: Shane Blakey; Karen Croft; Lisa Dunham; Sean Harrison; Suzanne Penney and Doris Wolm.

1 Year Honours: Marilyn Arsenault; Karen Eger; Lee Finlay; Russell O'Brien and Brent Stromberg.

Year five honour students

5 Year Honours: Miriam Vanderval and Michael

Wright.

3 Year Honours: William Packard and Karen Snell.

Haliburton Highlands Honour Society

1981 Certificates: Michael Anderson; Bret Austin; Douglas Cross; Andrew Feltham; Karen Hughey; Stephanie Kuno; Ernest Mosgrove; Laurie Sawyer; Jane Taylor; Randy Vanderstarren and Sharon Williams.

Perfect attendance

Receiving awards for perfect attendance were: for three years: Shane Blakey; Robert Heywood; Michael Pearsell; Nancy Shipley; Wendy Sicard; Catherine Tyler and Wayne Welch.

Two years perfect attendance: Wayne Beaver; Dana Collier; Jeffrey Foran; William Mulholland; Jeffrey Whitfield.

One year perfect attendance: Barbara Adams; Nancy Bagg; Wana Blakey; Leslie Booth; Kimberley Brown; Dale Brownson; Mary Anne Daigle; Rose Daigle; Christine Hartin; Julie Heayn; Robert MacLeod; Gregory McKay; Merreit McNeil; Colin Newell; Louise Newton; Eric Nicholls; Colin Robinson; Janelle Robinson; Kathleen Shipley; Karen Smith; Stephen Smith; Kristine Storey; Karen Wright and Michael Wright.

School letters

Three students were presented with school letters during the ceremony. They were Heather Kennedy, Miriam Vanderwal and Anne Marie VanLieshout.

Technical awards

The M.R. Herlihey Technical Scholarship for year one, a prize of \$50, to Stephen Holm, who received 86% in shop theory and practical.

The M.R. Herlihey Technical Scholarship for year two, a prize of \$50, to Peter Jennings, who received 82% in shop theory and practical.

The M.R. Herlihey Scholarship for building construction, a prize of \$50, to Michael Pearsell, building construction theory 93%, building construction practical 77%.

The M.R. Herlihey scholarship for machine shop, a prize of \$50, to Stephen Hogg, who received 80% in machine shop theory and 85% in machine shop practical.

The J. Douglas Hodgson award, a prize of \$50, to Michael Pearsell, who received 88% in drafting theory and 90% in drafting practical.

The Boice Motors Ltd. award, to Peter Connelly, a set of auto mechanics tools, for receiving 92% in auto mechanics theory and 83% in auto mechanics practical.

FROM THE CHAMBER

By Bob Stinson

This newspaper is published on the day of our annual meeting, so by the time many of you read this you will already have taken part in a day of meaningful workshops designed to help you in the profitable operation of your business. Many will also have enjoyed the annual banquet and taken part in the election of the Board of Directors that will guide the Chamber for the next year. They will also have joined us in honouring this year's Highlander of the Year and heard from the executive the plans and hopes for the future.

For those of you who were not in attendance, we are sorry you missed the event. We do hope you will find an opportunity to get up-to-date on the informative workshops and seminars that you missed. We also hope you will endorse and support the board that was elected by your fellow members in your absence. Your membership in the Chamber entitles you to a say in the organization and the annual meeting is the logical forum to exercise that right. It's a shame if you missed that opportunity.

House Calls

The Haliburton County Economic Development Commission feels that one of the best potential ways to encourage more development in the county is to work with the business people that are already here. They are convinced that there are many who have the ideas and probably the expertise to expand or diversify into other areas of business but for some reason or other are not moving in this direction. It may be financial assistance, or advice on the market potential, or just a matter of wanting reassurance that the idea, would work.

In view of this the E.D.C. has retained John Fleming of Haliburton to visit members of the business community and talk to them about their plans and concerns. Mr. Fleming is a retired executive whose background ranges through the publishing business, transport, manufacturing and the armed forces. He is making it a point to become familiar with all the federal and provincial programs that may be available to business men for their assistance. He will also be bringing problems that he becomes aware of to the commission meetings to see if they can uncover solutions to them. If you have something you would like to talk over with him call the Chamber office at 286-1760 and we can set up an appointment.

It is quite appropriate that the commission has started this excellent new program during Small Business Week. We look forward to seeing the successes we know it will encourage.

Sponsor wanted

Steve and Val Loughheed of Shakoona Kennels are busy preparing their beautiful sled dogs for a busy racing season this winter. Just about every weekend from January to March they can be seen at a Winter Carnival or a professional sanctioned race somewhere in Ontario, the U.S. or Quebec. Their teams have consistently placed in

the top 10 and have gained much recognition.

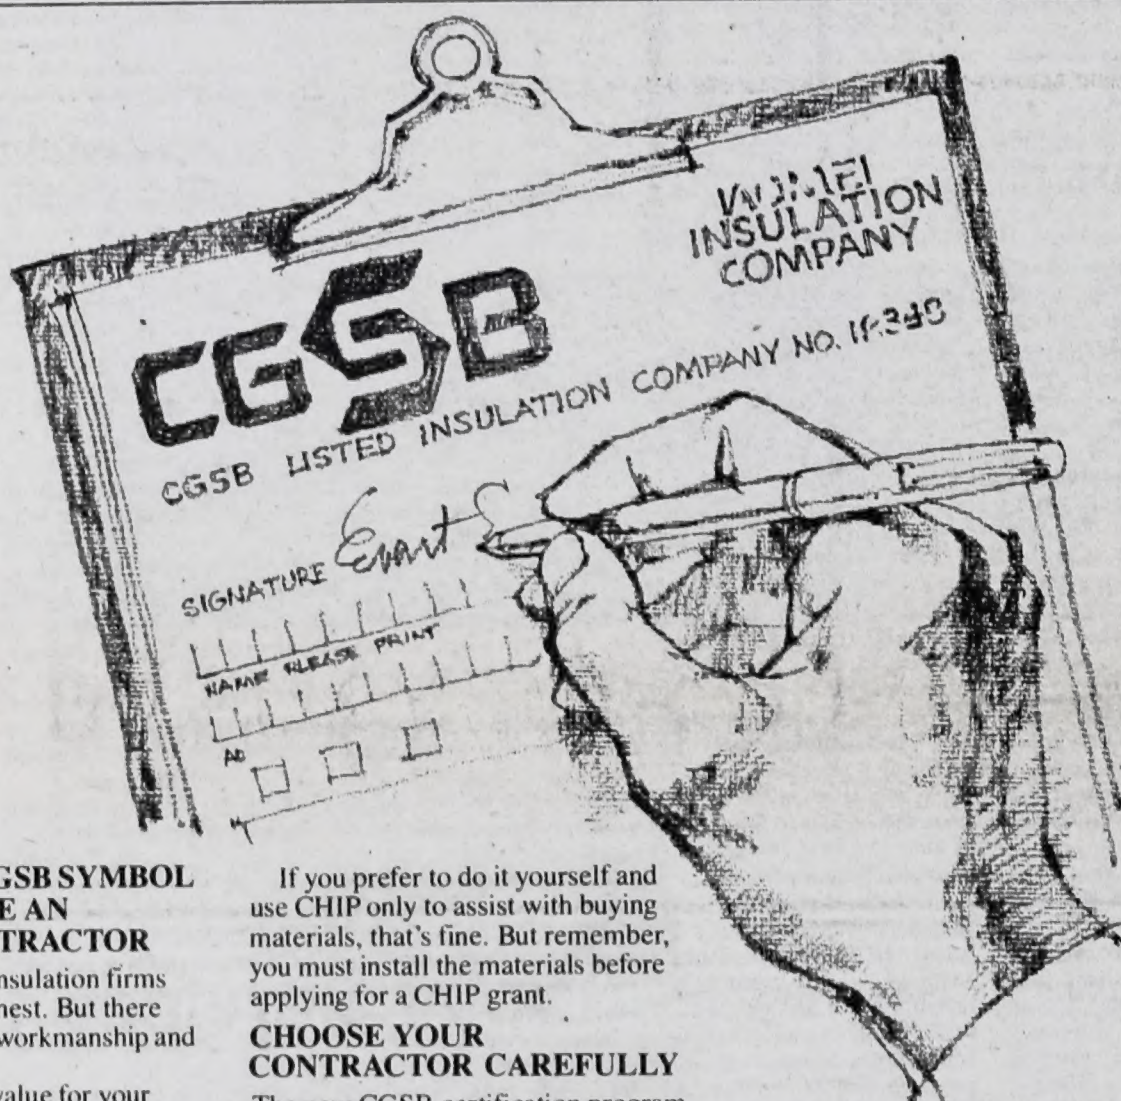

With travel costs escalating the Loughhoods are seeking a sponsor, who in return for the exposure they would provide on their travels, could assist to defray some of their expenses.

A sponsorship of about \$300.00 would give the donor a sign on the truck that is used, and distribution of their promotional materials at the site. If you are interested in discussing this further with Steve or Val call them at 286-1119 evenings or weekends.

INVEST IN
ENERGY CONSERVATION
IT PAYS BIG DIVIDENDS

THE MANAGEMENT OF ENERGY IN CANADA. ONE OF A SERIES.

STARTING NOVEMBER 1, 1981 CGSB-LISTED CONTRACTORS ARE REQUIRED FOR 'CHIP'

LOOK FOR THE CGSB SYMBOL BEFORE YOU HIRE AN INSULATION CONTRACTOR

The vast majority of insulation firms are both capable and honest. But there have been cases of poor workmanship and even outright fraud.

To help ensure good value for your insulation dollar, the Canadian General Standards Board has established a national certification program for residential insulation contractors. The contractors listed in the CGSB program certify to their clients that their quality of insulation workmanship meets the CGSB standard.

Only those contractors listed in the CGSB certification program are authorized to use the CGSB symbol.

USING A CONTRACTOR FOR CHIP? CGSB IS A MUST.

CHIP (the Canadian Home Insulation Program) offers taxable grants of up to \$500 to make your home better insulated and more airtight—if your house was built before January 1, 1961—whether you own or rent.

After November 1, 1981, if you intend to apply for CHIP and have a contractor install the materials, you must use a contractor who is listed with the CGSB program. You won't be eligible for a grant otherwise.

If you prefer to do it yourself and use CHIP only to assist with buying materials, that's fine. But remember, you must install the materials before applying for a CHIP grant.

CHOOSE YOUR CONTRACTOR CAREFULLY

The new CGSB certification program will do much to reduce the problem of poor quality work by insulation contractors, but don't stop there. You should further protect yourself in these ways:

1. Plan your home's energy savings by filling in the free EnerSave 'Energy Analysis' questionnaire. Call the EnerSave Hotline toll-free for your copy.
Call toll free 1-800-267-9563.
Ottawa/Hull residents call 995-1801.
2. Ask friends or neighbours to recommend a contractor.
3. Verify the contractor's CGSB listing number with your CHIP office. Check the company's record with the Better Business Bureau or your provincial Consumer Affairs office.
4. Watch out for high-pressure sales techniques.
5. Compare costs. Get three estimates in writing which locate and specify the size of the area to be insulated, give the type of materials to be used and list their RSI (or R) value. (RSI is the new metric rating for insulation).

6. Check your contractor for details such as CGSB listing number, the estimate of your home's existing RSI (or R) value, the RSI (or R) value of insulation to be added, and the recommended RSI (or R) value for your area.

7. Monitor the job. If possible, stay home while the work is being done. Don't be shy about asking the contractor questions.

8. Never sign a blank or partly filled-in contract or CHIP application form.

It takes planning and comparison shopping to find good value for your insulation dollar. But it's in your best interest to do it right from the start.

Get in touch with your CHIP office in Toronto to find out whether your home is eligible and how to apply.

Through the Highlands on horseback

While most people choose to view the Highlands from the window of a bus or automobile, a group of individuals recently decided to get a closer look. They set off on horseback from the Rockwood Farm just north of Minden for a hunt camp in Anson Township. Travelling with the group was Lynn Winans who captured some of the flavour of the trail ride in these photographs.

legislation to create a new Human Rights Code.

He said he has removed one of the most controversial proposals, which provided that someone who refused to produce documents for a human rights investigator could face a criminal charge of obstruction, and intends to follow through on a commitment to change the provisions of the bill so that investigators will be able only to request rather than require that documents be produced. Hopefully, he said, the bill will pass third reading by the end of the session in December.

Premier's Australian tour

Supposedly the Premier's recent Australian tour netted about \$100 million in business. Quoting from a Canadian Press story in which spokesmen for the three companies reputed to have netted the biggest contracts said that the deals were old news, former Liberal Leader Robert Nixon challenged the Industry Minister on the \$100 million figure. He accused the Minister of having manufactured the figure in order to make the Australian tour look like something useful. The Minister eventually conceded that the figure did indeed include contracts which had already been signed before the mission began.

by Susan Clements

I will be writing a column on social services in Haliburton County on a bi-monthly basis. Presently, I am chairman of the Haliburton County Social Planning Council (H.C.S.P.C.) and the Advisory Board on Children's Services (H.C.L.A.B.).

My first article is to inform you about an all day workshop at Locarno Resort in Haliburton County on November 25, which is being sponsored by H.C.S.P.C., H.C.L.A.B., and the Tri-County Local Working Group.

The objectives of the workshop are to familiarize agencies with existing community resources in the county, and to introduce the concepts of voluntary co-ordination and joint planning.

In the past, many planning bodies such as social planning councils, district health councils, working groups on mental retardation, and children's services committees were formed. These planning bodies were largely responsible for facilitating the development of programmes related to social services. As the programmes developed and expanded, the need to encourage the co-ordination of services became evident. In addition, there is now a greater necessity to develop a

capacity to respond to needs that cut across funding boundaries and involve more than one funding source. This is particularly important for sparsely populated rural communities, such as Haliburton County, which are unable to support a full complement of specialized services. At the November meeting, innovative approaches to address this

Board vacancy filled

Bon Berry has been appointed to the Haliburton County Board of Education as a representative for Anson, Hindon and Minden. Her appointment was confirmed at the October 20 meeting of the board.

Mrs. Berry will fill the vacancy left by the resignation of Lloyd Johnson who announced his intention to step down earlier this year. A committee of board members met to select the replacement from a number of volunteers.

A position left vacant by the resignation of Trustee Earl Cooper, serving the municipality of Dysart et al on the board, was filled in September. Paul Wilson was appointed to that position.

situation will be examined.

Participants will include administrative, field and voluntary staff in the fields of health, education, social services and justice. Haliburton County based service providers, and those serving the county who are based in Peterborough, Lindsay and Bancroft will be included.

The workshop will be chaired by the Director of Education for Haliburton County, Doug Hodgson. The guest speaker, Bill Fraser, has had considerable experience in rural based services in British Columbia, and is presently the administrator of a provincial facility. Mr. Fraser will address the themes of voluntary co-ordination and development of rural services. The participants will be divided into groups to examine case examples, and a planner will be available to assist in the analysis and synthesis of the groups' findings.

Guest speaker - Michael Purly, Executive Director, Canadian Coalition on Acid Rain.

PL store closing

The Minden outlet of Peterborough Lumber closes this Saturday for the last time.

The store, located on Highway 35 at South Water Street, will close its doors at the end of the Saturday business day. No formal announcement of the closing has been made by the parent company, although rumours of the store's pending closure have been circulating for a number of weeks.

Closing the store will mean at least three individuals will lose their jobs, although it is understood the Minden

manager, Bob Sisson, is being transferred to another store location.

The Peterborough Lumber operation was recently sold to the Cashway Lumber Company.

It was just over a year ago that the PL store moved into its present location, consolidating its lumber warehouse and building supply store under one roof.

It is understood that the inventory at the Minden store will be transferred to other PL locations.

Youths discover box of dynamite

Ontario Provincial Police are continuing their investigations into a case of dynamite and blasting caps which were found by a number of local youths in a Minden area quarry.

The authorities report that they were contacted Saturday afternoon by Sid Stamp who said his son, Greg and a friend, Cory Davis, had found the dangerous cache.

The Ontario Provincial Police identification unit from Peterborough was called in to deal with the matter. The material was burned at the site where it was found.

The incident is being investigated by Constable Barry Connelly.

Two car accident

Two vehicles sustained \$4500 damage following a collision October 19 on Highway 35 in Minden.

Alfred Titus, 76, of Guilford Township, attempted to pull out on to the highway when his vehicle was struck by a car driven by Maurice S. Williams, 52, of Ancaster.

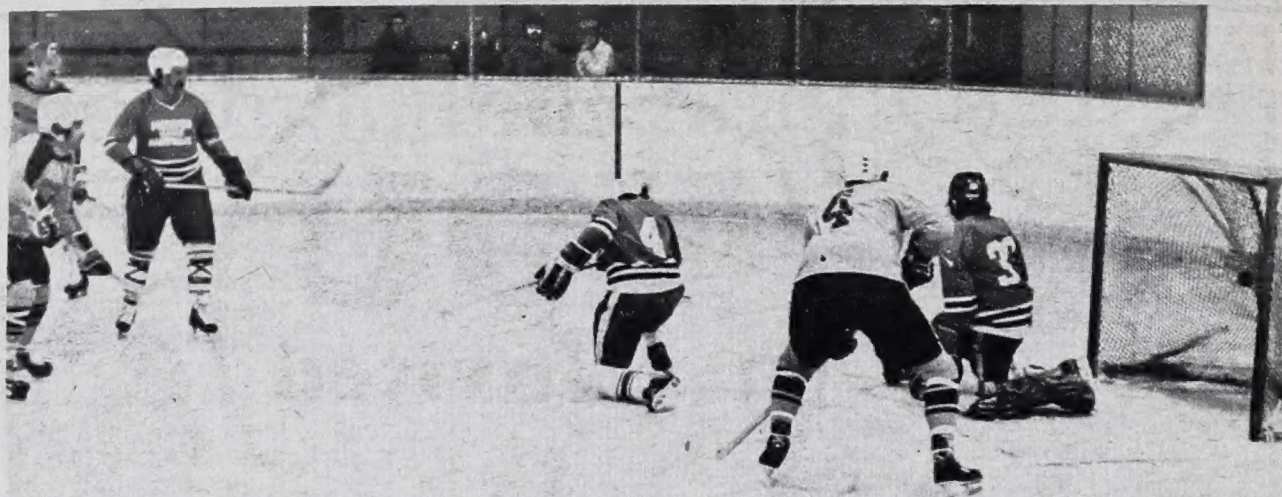

Police have charged Titus with failing to yield the right of way.

The matter is being investigated by Constable Bob Pearson.

\$12,000 damage

A single car accident severely damaged a truck on the Harburn Road October 24.

The mishap occurred when 21 year old Gordon Cain of Mississauga was driving the truck up a steep incline. The truck, loaded with firewood, stalled and started to roll backwards. It rolled into a ditch and was thrown sideways, damaging the frame, cab and box of the truck.

The puck is in the net as the Hall's Insurance team has scored another goal against Home Hardware in the opening game of the Men's Recreational Hockey League Monday night. Home was able to battle back to claim a 7-6 victory. In the second contest, the Rockcliffe Foamblowers defeated Hartwick Construction 6-5. The scores are indicative of the close hockey being played again this year in the league. Games are every Monday night starting at 7 p.m.

Constable Brian Dunham investigated the incident.

Charges laid

A Glamorgan Township man has been charged with

failing to report an accident to police and failure to wear a seat belt following a mishap October 25 on Highway 503

near Gooderham.

John Deltor, 73, sustained minor injuries when the vehicle he was driving left the road and came to rest in the

ditch. Damage was estimated at \$3000.

The investigation was carried out by Constable Brian Ladurantaye.

Redmen advance to Kawartha West final

The HHSS Redmen have advanced to the Kawartha West football play-off this Thursday and will have the services of quarterback Tim Davies.

The Redmen won a spot in the play-off by virtue of their 19-10 win over the I.E. Weldon Wildcats last Friday. The win gave both teams a 4-1 record with HHSS gaining the home field advantage by having more points in its favour.

The possibility that quarterback Tim Davies, who has been a key player in the Redmen wins this year, would be unable to play this week arose during the weekend. The player injured his arm in a Haliburton Huskies hockey game in Penetang. The injury caused the arm to swell at the elbow and there was some question as to whether the injury would mean he would have to sit out the Thursday game.

However, the swelling has eased and the quarterback has been pronounced fit for the Thursday championship match.

The winners of the Thursday game will advance to the Kawartha District AA championship in Peterborough.

Friday's game was played on a slushy and rain soaked field. While both quarterbacks went to the air on a number of occasions, most of the action was in run plays.

There was no scoring in the first quarter. Weldon took the lead in the second quarter on a 15 yard field goal. Tim Davies booted a 30 yard single point for the Redmen but, as the half closed, the visitors held a 3-1 lead.

Redmen came on strong in the second half, picking up a touchdown from Scott Arbuthnot on a six yard off-tackle play. The team went for the two point conversion and got it with Kevin Shapiera charging over the line for the Redmen.

Tim Davies demonstrated his versatility and value to the team when, in the third quarter, he caught a Wildcat punt on his own 40 yard line and ran the ball back to their six. The runback set-up Kevin Shapiera for the second Redmen touchdown of the afternoon. Haliburton again opted for the two point conversion attempt with Ron Yake flipping the ball to Tim

Davies who then passed to Mike Hatkoski to complete the play.

Weldon pressed in the final quarter, moving the ball 50 yards on a pass play to the Redmen 10 yard line. A face mask penalty against the Redmen advanced the ball to the five yard line and from that vantage point the visitors charged over the line for a TD and single point conversion.

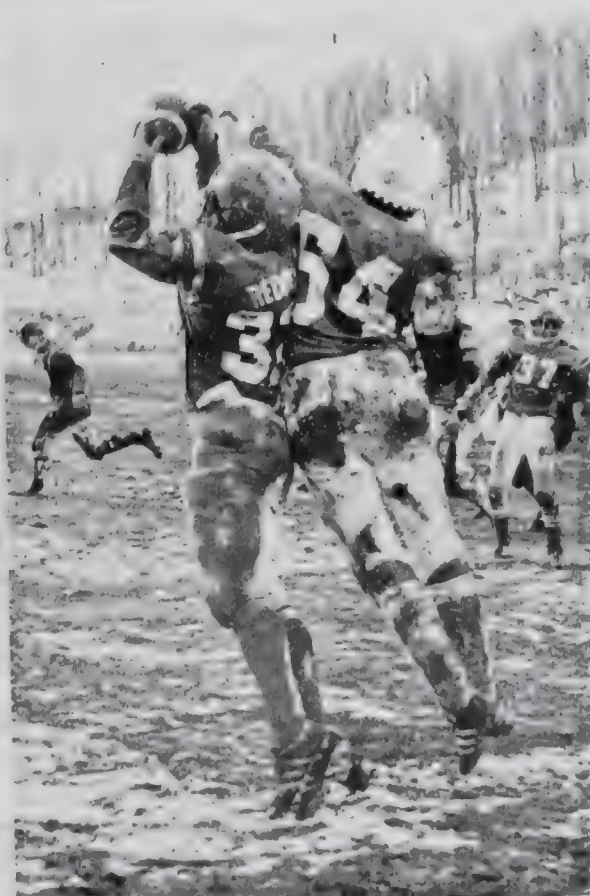

Those would be the final points the Wildcats could claim in this game as the Redmen defense tightened to protect the lead. The Redmen kicked two more field goals before the game ended with a final 19-10 score.

Outstanding players during the game included, Scott Arbuthnot, Kevin Shapiera and Ron Yake on the offensive team, Tim Davies and Rob Medcalf who played both ways, and Scott Mitchell, Rick Choy and Steve Smith on the defensive squad.

Game time Thursday for the Kawartha West Championship is 2 p.m.

Slush flies in all directions as two players scramble for a loose football along the sidelines at Haliburton High School. The snowy conditions and wet field added to the problems of the quarterbacks and made for a sloppy, splash-filled game.

HHSS and I.E. Weldon players jockey in mid-air for control of the football during the Friday afternoon game.

County doesn't want road

The Haliburton County Roads Department is not interested in taking over The Irondale Road which cuts through the heart of Snowdon Township. The suggestion was made at the October 21 meeting of Haliburton County Council.

Snowdon Deputy Reeve John Francis suggested that the county might be interested in taking over the road since it could be an important link in

the county system. He noted that the township was unable to make major improvements to the road since traffic was not heavy enough to warrant government assistance. However, he pointed out the road does provide a shorter route for residents in the south end of the county wanting to reach the Minden area.

Warden Murray Fearrey said the same situation would exist if the road came under

county control. The lack of traffic would mean provincial development funds would not be available to help rebuild the route. "We are caught in a chicken and egg situation," he commented. "Without the traffic we can't get the grants to improve the road and without the improvements, the traffic will not travel on the road."

The Irondale road will remain the responsibility of Snowdon township.

HCSA wants rail line

The Haliburton County Snowmobile Association will make a start at cutting a new trail in the Tory Hill area. Haliburton County Council was informed the organization will use the \$500 in grant money provided by the county to extend the trail network in that area.

The notification was contained in a letter read at the October 21 meeting.

The same letter also requested the council consider using the abandoned CNR railway right-of-way as a possible snowmobile trail. The HCSA letter said the group was willing to accept liability for snowmobiling activity along the route from Norland to Haliburton Village.

Bob Vick, Reeve of Snowdon Township, said he felt large portions of the railbed could revert to the

adjacent owners once the CNR abandons the line. He said the township was considering making a bid for the right of way as a township road.

County Warden Murray Fearrey suggested that provincial legislation had been passed to give the

province first refusal rights on any such abandoned property.

Whatever becomes of the abandoned CNR line, it would appear that the request for the HCSA to turn the route into a snowmobile trail is far down the list of possible contenders.

Home and School news

This year's first meeting of the Archie Stouffer Home and School Association will be held on Tuesday, November 3, at 7:30 p.m. in the gym. Come out and meet the principal and teachers. Mr. Baker will speak about the various programs in the school and introduce the staff for this year.

There will also be refreshments and a skate and hockey equipment sale after the meeting.

Although our Home and School Association was formed only last year, we were able to raise substantial funds from our hot dog lunch sales.

This money helped pay for "The Friendship Fable", a play presented to the Kindergarten to Grade 4 classes as well as the puppet show presented by the Guild of Fine Arts as part of the Kindergarten - Grade 1 class trip to Haliburton. A donation was also made to the Grade 8 class trip in recognition of their assistance with our lunch program.

Our first project for this school year, was to present a folk singer, David Archibald, who entertained the primary grades earlier this month.

We hope to get a hot lunch program underway early in the new year and have several projects in mind for the 1981-82 school year.

The Association will be purchasing a piece of equipment for the Kindergarten - Grade 1 playground, and hopefully funding an exercise course on the school property. As well, money will be available to help pay for a number of classic films to be viewed by the students and other events yet to be decided.

Archie Stouffer Home and School Association has joined the Ontario Federation of Home and School Associations. The O.F.H.S.A. has been instrumental in effecting a number of beneficial changes regarding our children. For example, they were in part responsible for the legislation requiring traffic flow in both directions to halt when a stopped school bus has lights flashing. They also lobbied for the extension of family allowance benefits for students beyond the age of 16.

We would happily welcome new members, and look forward to the support of a large number of parents and teachers this year.

If you have any questions for our group please feel free to contact Judy Phillips at 286-2316 or Pat Brezina at 286-1958.

Please join us Tuesday, November 3 in the school gym at 7:30 p.m.

Grant approved

A New Horizons grant of \$21,072 has been awarded to the Fort Irwin Resident's Association to assist with the construction of a centre for the community. The grant was announced last week by Bill Scott, M.P. for Victoria - Haliburton.

A portion of the funds will be used to provide equipment and materials for various projects.

NOTE: The Minden Peterborough Lumber Store will close their doors for the last time
Saturday, October 31.

Your Peterborough Lumber Building Centre

You'll Agree: "It All Starts Right Here at P/L"

We have heard about many wild animals in back yards but one day recently there were two bears seen in a yard near the Golf Club.

All their friends send good wishes to these people who may still be in hospital -- Warner Casey 432 St. Joseph's, Peterborough, Janice Shaw, Ross Memorial, Edna Cowen, Wellesley, Toronto, and Irene Stewart. Also a speedy recovery to Bob Herlihey who has a broken leg.

Mr. and Mrs. Bob Hughes, and Dana and Mr. and Mrs. Wayne Cox and Megan enjoyed a weekend with the Blake Hughes at Mississauga.

We were interested in seeing the grand plaque which Joe Dollo received for 25 years with I.G.A.

Congratulations to Gaye Lytle of Mississauga who won the W.I. afghan and pillow holding ticket number 407 on October 21st draw.

When the weather suits you not,
Try smiling.
When your coffee isn't hot,
Try smiling.
When your neighbors don't do right,
Or your relatives all fight,
Sure 'tis hard, but then you might
Try smiling.

Doesn't change the things, of course -
Just smiling.
But it cannot make them worse -
Just smiling.
And it seems to help your case,
Brightens up a gloomy place,
Then, it sort o' rests your face -
Just smiling.

Author unknown

Don't forget these people at Hyland Crest having birthdays - Edith Allcorn, November 8, Gladys Dennis, November 10, Olive Tyler, November 14, Jessie Walter, November 21. They might like a visit, a card or a phone call.

At the weekly Mini Card Party at St. Paul's Parish Hall last Thursday afternoon, winners were for cribbage Ruth Kellett and Gordon Kellett, for euchre, lone hands, on a cut, Johann Beattie and Shirley Elcome and Ada Turrell.

Sincere sympathy goes to the families and friends of the late A. F. Pilcher and C.T. Hargreave (a yearly summer resident 97 years of age).

Mr. and Mrs. Bob Dudman of Markham spent the weekend with her mother Mrs. G. Hewitt.

Before the price goes up, there will be some new postage stamps, the Christmas ones come out on November 16 and the Aircraft ones on November 24.

We heard that everyone had a great time at the dances on the weekend, both the teen one on Friday night and Kirk Hewitt's wedding dance on Saturday.

Some people from our village went to Northern Ontario last week for the

Moose Hunt; we haven't heard if they were successful or not.

Scott Callow of Huntsville sustained a severe injury playing hockey on the weekend. He is grandson of the Harold Coulter, hope he soon improves.

Some coming events are St. Paul's Thrift Shop will be open this Friday, October 30 from 1:30 - 4 p.m.; Horticultural meeting at 7:30 at the Common Room at new Library Cultural Centre with Len Shea special speaker. The U.C.W. Members will meet at their Church Hall November

4 at 7:30 with a special speaker. November 7 is Haliburton County Senior Citizens Luncheon, Bazaar and Bake Sale from 10 - 2 at Haliburton Arena up stairs and draw for quilt and hanging at this time.

Some of our village had hydro off for several hours during a snow storm last week. Hope this doesn't happen in cold zero weather.

Perhaps we will now have Indian Summer after our 6 inches of snow, and watch out for those Hallowe'en people this Saturday. Cheerio until next time.

Lines from Lutterworth

by Jean Lacey

Hi! Well there was a bit of excitement around here last week. The hydro lines went down and of course kept on flaring up as bright as day and then dying down again. It was a beautiful sight even though dangerous and unpleasant without hydro. Of course we were all right as we have a gas stove so drank tea by candlelight.

The Police were right on the job directing traffic around the wires. I hope it's not an omen for the rest of the winter.

Pete and Fran Learn were up to their cottage for a week.

Heard that the teen dance was a great success.

The Miller cottage was broken into recently and a couple of articles taken. Too bad there is always someone wanting what others have and go to great lengths to get what is not theirs.

Had a houseful ourselves this weekend. Bill, Wendy and Dawn from Orangeville were up, also Mich Cruickshank and her girlfriends Clare Keeling and Brenda Mahoney. They were all from Shelburne.

The Dunsfords spent the weekend in Pickering attending a surprise birthday party for Frank.

Time may be greater healer, but it's not a very good beauty specialist.

Hint of the Week
Proper cleaning and care of vinyl upholstery - Never oil vinyls because oil will make the vinyl hard. If this happens it is almost impossible to soften it again. For proper cleaning, sprinkle baking soda or vinegar on a rough damp cloth. Then, wash with a very mild dishwashing soap. Body oil will cause vinyl to become hard so it should be cleaned once in a while.

Kids Korner
Well kids, this Saturday is the big night. "Hallowe'en". Please! be extra careful when you are going around collecting your candy. Here are some Hallowe'en Don'ts - DON'T wear a mask. You can see better if you paint your face. DON'T wear disguises that

can catch fire. DON'T wear dark costumes when you go out. Drivers may not see you. DON'T put candles inside jack-o'-lanterns. DON'T wear high heels. You may fall over. DON'T wear a long costume. It may trip you. DON'T eat your trick-or-treats when you get them. Bring them home for your parents to check first. DON'T stay out after midnight or you may turn into a frog.

Strange rattles and whistles
Late in the night.
Strange faces and costumes
Give you a fright.
Strange goodies to munch on
Strange potions to pour
When ghosties and goblins
Knock at the door.

Your friends are all coming.
The spell has begun.
Tonight is the night
For Hallowe'en Fun.

Witch's Brew

Take: 2 cups of orange juice, 1 cup of lemon juice, 4 cups of apple cider, 1 cup of icing sugar and mix everything together in a big jug. While you are stirring, chant in a deep deep voice: 'Andy-Dandy Fiddle-Foo, Happy-Yappy Witch's Brew.'

What word do most people like best?

The last

What is the value of the moon?

Four quarters

What is the difference between the rising sun and the setting sun?

All the difference in the world

What is worse than raining cats and dogs?

Hailing taxis and buses

What did Paul Revere say when he finished his famous ride?

Whoa!

Why does a hen lay an egg?
Because she can't lay a brick

Swaying branch, a goblin's hand
Scudding clouds, a ghostly band
Jack-o'-lanterns glint and glower
Midnight is the witching hour.

Bye for now. Take it easy.
God bless till next time.

Snowdon News

At our meeting on October 5, it was a pleasure to have the London Life Insurance representative, Bob MacDonald, with us. Bob explained the pros and cons of the London Life Group Insurance plan, with regard to independent businessmen carrying the coverage. It would appear, should enough members be interested that coverage could be obtained through Snowdon Supporters, at a group rate.

This meeting was our first anniversary, and we celebrated after the meeting with coffee and cookies.

At our next meeting on November 9, it would be in order to renew memberships, and discuss our objectives for the coming year. It is also the time to decide what is to be done with our excess bank funds.

Our next meeting is November 9 at 7:30 p.m. at the home of Mr. and Mrs. Al Hartwick. Their home is at the intersection of Hwy. 519 and the East Line Road, in Gelert, first driveway on the right after you turn onto East Line Rd.

Municipality of the Township of Lutterworth SALE BY TENDER

1 - Only - 4 Ton 1973 Dodge Truck complete with Two-Way Spreader, Snow-Plow Harness and Wing.

Household Sale for Amos Brubacher, Minden (near school, North Road) on Saturday, November 14, 11 a.m. Watch for ad next week.

CARD OF THANKS

The family of the late Robert McIntosh would like to express their sincere appreciation to friends and relatives, nurses and staff at the Minden Red Cross Hospital, Dr. Lodenquai, Rev. Miller and the Gordon A. Monk Funeral Home on their kindnesses on our recent bereavement. 10D

CARD OF THANKS

The first teen dance to be held in Minden in a number of years was held on Friday, October 23 in the Minden Community Centre with nearly 100 teens in attendance. The idea proved successful and plans are already being made for the next dance in November. We are hoping the attendance will be even greater at the next dance as we will plan it around the High School dance which this time happened to be the same night. The teens involved in organizing this dance did an excellent job and I am proud of the effort they put forth. Thanks to Brent Murdoch, Scott Young and Chris Anderson who are the Dance Chairpersons and to everyone who took turns working the night of the dance, you did a great job. Special thanks to Tommy Williamson for donating his services for the night and to the parents and supervisors who lent their support. Thanks again to the Minden Kinsmen Club, the Recreation Committee, Mae's Country Mart, Ron Murdoch and the merchants of Minden who have helped us get started.
Linda Pentney

Let's run around together.
PARTICIPATION
The Canadian movement for personal fitness.

CARD OF THANKS

The Archie Stouffer Home and School Association would like to thank the following merchants for their support last year: Linkert Bakery, Kawartha Dairy, Dollo's I.G.A., and Minden Red and White Foodmaster. Thanks also to Mr. Baker, staff and grade 8 students, and all the parents who helped with hot dog lunches. We look forward to your continued support this year. Our first meeting will be Tuesday, November 3rd, 7:30 p.m., in the gym. Come and meet the Principal and teachers. There will be refreshments and a skate and hockey equipment sale after the meeting. 10D
